Down economy or not, great people always have options. Recruiting great talent, even in a down economy, isn't easy! During these tough economic times progressive firms have turned to Executive Leadership Solutions to help them identify, locate and negotiate a career change with our industry's "top talent". 2009, 2010, & 2011 have been some of the best years in our firm's history because many downstream petroleum and convenience store operators recognize that they must operate better than ever. ***Only top level talent will accomplish that goal!*** As the largest and most experienced firm specializing in this industry we can assist in finding the "top talent" that will move your company to the next level.

All the best,
Brian Wright
